

**3 Kanal Signalwiederholer für RGB Lichtbänder
für 5 bis 24VDC LEDs, max. 5A pro Kanal**

LED CV Power Repeater

LED Power Repeater is suitable for all of our company's power-output style controllers' power expansion, it accepts PWM control, the control quantity of LED lights would be twice as much by adding one more power repeater, unlimited quantity of power repeater to be connected theoretically.

1. Product Parameter:

LTNGLT*AMP (Common Anode)	
Power Supply Chosen	DC CV SMPS
Input Voltage	DC5V ~ DC24V
Max Load Current	5A/CH×3CH 15A Max
Max Output Power	75W(5V) 180W(12V) 360W(24V)
Working Temperature	-30 °C~55 °C
Dimension	L121×W39×H39(mm)
Package Size	L123×W42×H42(mm)
Weight (G.W.)	100g

2. Features:

1. 3 Channels RGB output, 5A/CH, total 15A.
2. Accept PWM control.
3. Unlimited connection quantity theoretically, unlimited power output expansion.
4. The in-phase possibility is not restricted by any numbers of repeaters, a number of repeaters work together are always synchronous.
5. Maximum length from controller to repeater can be 500meters.

3. Product Dimension:

4. Conjunction Diagram:

1. Repeaters are All Connected to Controller in Parallel.

2. DMX Decoder Connected to CV Power Repeater as Follows:

3. Power Repeater Connected to LED Dimmer as Follows:

5. Attention:

1. The product shall be installed and serviced by a qualified person.
2. This product is non-waterproof. Please avoid the sun and rain. When installed outdoors please ensure it is mounted in a water proof enclosure.
3. Good heat dissipation will prolong the working life of the controller. Please ensure good ventilation.
4. Please check if the output voltage of any LED power supplies used comply with the working voltage of the product.
5. Please ensure that adequate sized cable is used from the controller to the LED lights to carry the current. Please also ensure that the cable is secured tightly in the connector to avoid the accidents due to overheat and poor contact on the wire.
6. Ensure all wire connections and polarities are correct before applying power to avoid any damages to the LED lights.
7. If a fault occurs please return the product to your supplier. Do not attempt to fix this product by yourself.
